SUMMARY

Salesforce Developer at Framework Digital, working with Apex, SOQL, LWC and Flow on the product catalog of a large pharmacy retail client. Software Engineering student at PUC Minas, with previous experience in C#, ASP.NET and OutSystems and personal projects in Java/Spring Boot and React. Trailhead Ranger, working toward Salesforce certifications and international project opportunities.

EXPERIENCE

Salesforce Developer (Intern) Mar 2026 — present
Framework Digital

- Built features with Apex, SOQL, Lightning Web Components (LWC) and Flow on the Catalog/PIM team.
- Maintained and evolved the product catalog (PIM) integrated with Salesforce for Drogaria Araujo, a pharmacy retail chain.
- Took part in agile ceremonies and worked directly with the client.

Software Developer Nov 2025 — Mar 2026
Framework Digital

- Developed applications with C#, ASP.NET and OutSystems.

Programming Teacher (Intern) May 2023 — Nov 2023
Grupo da Solidariedade

- Taught programming logic and development fundamentals to young people in a social project.
- Planned lessons and mentored students one-on-one.

PROJECTS

CoffeeTrack Minas 2026
Salesforce ecosystem to track specialty coffee production in Minas Gerais: custom objects (Farm and Lot), a Flow that flags lots above 1000 m as specialty coffee candidates, and an LWC buyer portal filtered by SCA score.
Salesforce · Apex · LWC · Flow · Salesforce CLI · github.com/elijuniordd/CoffeeTrack

TP Hospedagem 2026
Lodging booking system built as a team for the Modular Programming course: Spring Boot back end with MySQL, React front end, notifications, booking cancellation and integrated payments.
Java · Spring Boot · MySQL · React · Docker · github.com/Programacao-Modular-PUC/trabalho-pratico-tphospedagem

ClimaAPI 2026
Spring Boot REST API that fetches the weather forecast for a city using WeatherAPI. Built in a pair for the DIAW course.
Java · Spring Boot · Maven · REST · github.com/elijuniordd/ClimaAPI

n8n Random Node 2025
Custom node for the n8n automation platform that generates truly random numbers through the Random.org API. Technical challenge for the Onfly internship program.
TypeScript · Node.js · n8n · Docker · PostgreSQL · github.com/elijuniordd/n8n-random-node-challenge

EDUCATION

PUC Minas
Bachelor's in Software Engineering
2025 – 2028

CEFET-MG
Technical High School · Robotics and 3D Modeling
2021 – 2023

SKILLS

Salesforce
Apex, SOQL, Lightning Web Components, Flow, Salesforce CLI

Languages
Java, C#, JavaScript, TypeScript, SQL

Frameworks
Spring Boot (Web, Data JPA, Validation), React, ASP.NET, Node.js, OutSystems

Tools
Git, Docker, MySQL, PostgreSQL, Vite, Scrum
